Subject: Imperial Rule 207

Hi Ariel,

I wanted to give you a heads up as a follow up to our discussion yesterday regarding Imperials submittal of Rule 207. In their submittal letter, they state they are submitting two versions of revised Rule 207, one for federal consideration and submittal to the US EPA and the other a State version. The federal version is labeled "Federal SIP Version" in the footer and was appropriately submitted to EPA as the SIP submittal. However, while looking into this for a question NARA had about IBR'ing this rule into the CA SIP, I noticed that this same "federal" version is posted on ARB's rules web page for Imperial. It seems that on ARB's web page, the full local version should be posted, rather than the federal version, which is missing some provisions. Not sure who maintains your rules database, but I wanted to point out this discrepancy so it can be fixed. Imperials web site has the correct copy posted. FYI.

Laura
